Vigilix Receives PCI Certification

[< Return to News Overview](#)

Vigilix 3.8, the technology behind Vigilix Total Support Manager and ScanSource Virtual Technician as been reviewed by Trustwave to ensure that it does not compromise a merchants ability to obtain and maintain PCI Compliance.

In fact, the Trustwave Assessment determined that Vigilix's implementation of two-factor authentication as part of the remote control module helps the merchant meet the PCI-DSS requirements for remote access.

See the Trustwave summary letter below or contact sales@vigilix.com for more details:
