

Introducing: Avero Right Now for Avero Mobile

Take action right here, right now. Get the real-time insights you need to manage your restaurant operations anytime, anywhere.

FEATURES

- Bird's-eye view of your entire business with drill-down capability to the check level
- Immediate access to key operational data
- Hand-picked graphical insights in the palm of your hand
- Sleek, intuitive, easy-to-use interface
- Logbook Siri integration (iOS)

BENEFITS

- See how your business is doing *right now* - checks, covers & more
- Watch your sales grow in real time
- Make data-backed business decisions such as cut-call on the fly
- Improve communication & collaboration with your team
- Use Avero on the go wherever you are, whenever you want

USES BY JOB FUNCTION

- CEOs & Directors of Ops:** Gain high-level insight into performance across your businesses in a clear, concise, easy-to-use format from wherever you are.
- General Managers:** Save time with on-the-go access to the Calendar, Logbook, Check Search & transactional-level data.
- Heads of Service Teams:** Pinpoint specific servers that are selling well or poorly in real time.
- Analysts & Finance Teams:** Reduce theft & employee negligence by easily finding checks that have been open too long.

Learn more about Avero Mobile & Avero Right Now:

Lindsey Lipp, Channel Sales Manager | 646.421.6249 | llipp@averoinc.com

"I already rely on and trust Avero because its accuracy has been proven time and time again. Avero Right Now for Avero Mobile takes it way up to a whole new level. It's a revelatory platform that launches restaurant analytics into the future."

Michael Fancher
Director of IT
The Burke Group

"I go on the Avero Mobile app daily, sometimes twice a day, just to see our progress. I use it to see what items are selling, which cocktails are trending, which entrees are doing well, and to have that information at my fingertips allows me to make adjustments much quicker than before."

Robert Macniel
Restaurant Manager, Twenty6
La Quinta Palm Springs
